

OPEN TO INVESTORS — 2026

Invest in the Future of Legal AI

Lawra is an agentic AI ecosystem for legal practice in the AI era — 50+ AI tools across lawyer-readable product categories, 10+ autonomous AI legal agents, professional services platform, 1,950+ pages of content, 9 native languages. Live, operational product across 8+ service lines. We're not selling tools; we're deploying autonomous AI legal agents that work alongside lawyers, in-house counsel, and individuals. Latin American beachhead, multilingual moat, no direct competitor.

**10+ areas · commercial · corporate · litigation
deep · employment · IP · privacy · regulatory · AI
governance growing · family · tax on roadmap**

Pitch deck

Business plan

The ask

invest@lawra.io

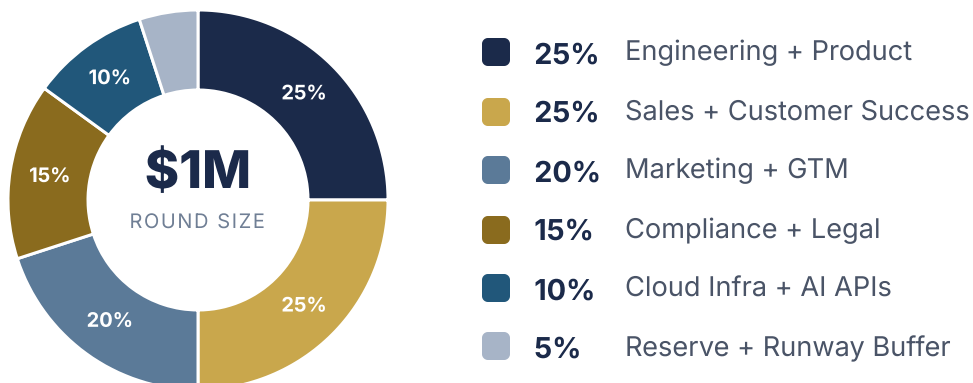

Use of Funds — 18 months

\$1M ARR by month 18 → Series A trigger at \$20M–\$50M valuation. Conservative path: services-first revenue (consulting, case implementation, training) + Lawra Incorporate Premium freemium → SaaS subscriptions ramp.

All investor materials

One kit, nine documents. Same numbers, different depth.

Executive summary

Pre-money, ask, traction, team — everything in 90 seconds. Print-ready, with a PDF.

Deck

The slide presentation, 16:9, keyboard-navigable, downloadable as a landscape PDF.

Business plan

Diligence-grade: market, GTM, financials, risks, roadmap.

Revenue streams

Every stream, who pays for it, and every published price quoted from its own page.

The ask

Round terms, valuation defended from both sides, use of funds, ticket tiers with rights, dilution.

Team

CV-grade detail on the humans, then the AI executive leadership, disclosed as AI.

Investor FAQ

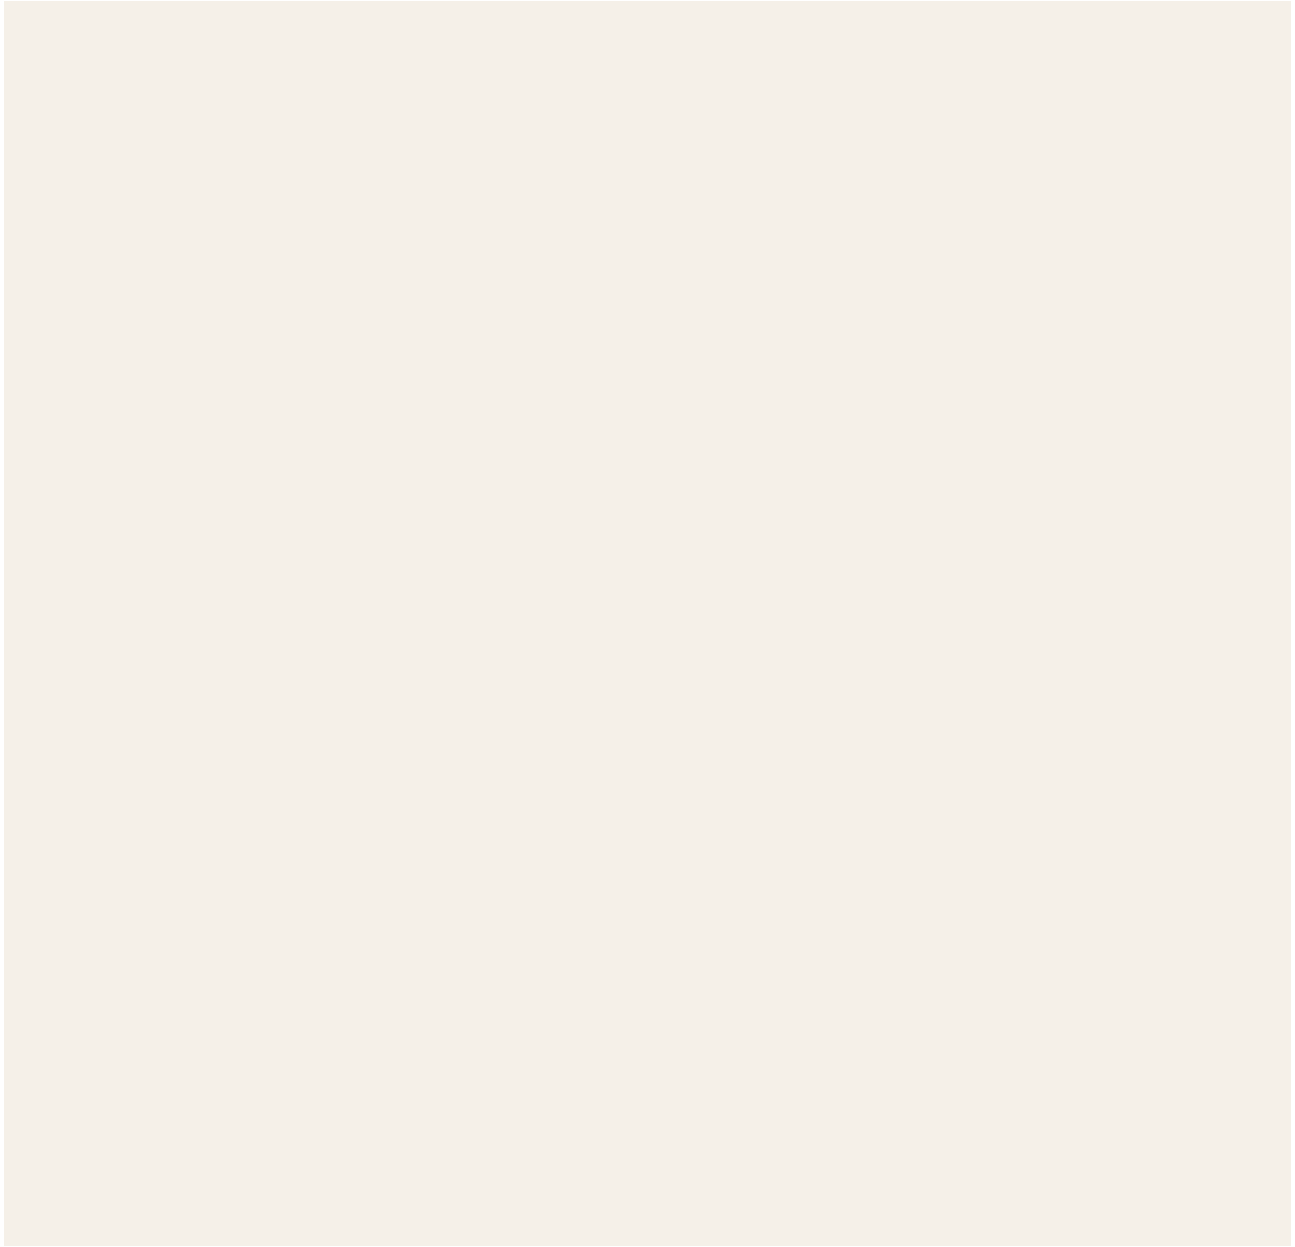

The questions serious investors ask, plus the diligence list available under NDA.

Canvases

Business Model Canvas, Lean Canvas, and one Value Proposition Canvas per customer segment — generated from the business profile.

Growth

The flywheel, the customer funnel with the basis of every figure, and the roadmap over the runway this round buys.

Already shipped, not promised

The round funds scaling what's operational — not building a hypothesis.

✓ **Already has a live product**

1,950+ pages across 9 languages, 20+ interactive tools, multi-persona AI assistant, a fully operational 50+ tool product catalog (10+ autonomous agents), the Council of Jurists, Trial Simulator, Lawra Incorporate Premium freemium package generator, 95+ doc incorporation library

✓ **Already has every revenue line ready to sell**

Validated pricing, developing + developed world tiers, no further development needed

✓ **Already has a market position**

Latin American beachhead, multilingual moat, no direct competitors at the multilingual + civil-law + sovereign + education-paired intersection

✓ **Already has a clear financial path**

Conservative break-even at month 14–16; revenue compounds across 50+ AI tools, 8+ service lines, and Lawra Incorporate Premium (\$499 one-time / \$149/mo bundle), targeting LatAm + global multilingual mid-market.

✓ **Already adopting the Anthropic Legal playbook**

Anthropic open-sourced claude-for-legal in April 2026 — 80+ workflow agents across 11 practice areas. We have adapted the full portfolio of agents and tools, enhanced them, calibrated them for international, regional, and local legislation including civil-law jurisdictions, translated them across our 9 languages, and integrated them with our own existing portfolio of tools, services, and agents — for a combined total of 50+ legal agents available to Lawra users today.

The team

A founding team spanning regulatory, legal and technology execution, with decades of combined practice. These are the humans on the cap table.
